[30th & 31st March 2022 | Palais du Pharo - Marseille, France]

Energy and cybersecurity stakeholders,

**Let's meet at the 1st European Forum
on cybersecurity for the energy sector**

CYBER4ENERGY :

30 / 31 March at the Palais du Pharo in Marseille

A 2 days event aiming at raising awareness to the cybersecurity challenges and solutions specific to the energy sector in order to enhance the protection of the critical energy industry!

PROGRAM

REGISTRATION

More information on our website : www.cyber4energy.com

MAIN TOPICS :

As the process of digitizing countries, societies and economies increases, **the risk of cyberattacks has increased** as well. Cybersecurity has become essential to avoid disruptions of the energy chain that can have serious impacts on citizens and economics, and represents a major collective priority for sustainable economic development.

Cybersecurity challenges
in the energy sector

Current regulations
and roadmaps

Technologies and solutions

Skills developments and cost

5 competitiveness clusters of the French Smart Energy Alliance are involved to build this event. Their purpose is to bring two sectors into dialogue: the world of cybersecurity and the energy one, to create performant solutions!

French innovation clusters in energy and digital transition and mobility strengthen their strategic alliance under the "**Smart Energy Alliance**" banner.

Join international experts, decision-makers, public authorities and companies to:

- Share the specific issues of the energy sector
- Be aware of the current and coming regulations
- Know the best current and future solutions

- Progress together: learn and share good practices

CONFERENCES

Inspiring panels and round tables gathering international experts, decision-makers, public authorities and companies

NETWORKING

Meet cybersecurity providers, customers and prospects. Exchange about current needs and available solutions

AWARDS

A contest open to european startups and SMEs, proposing or having implemented innovative cyber solutions in the energy sector

EXHIBITION HALL

Find out about various specific solutions from SMEs and discover our sponsors
